FALL TERMS IN THE CITY'S COLLEGES. EXAMINATIONS AND ARRANGEMENT OF CLASSES-

CHANGES AND IMPROVEMENTS.

CHANGES AND IMPROVEMENTS.

The public schools of the city reopen to-day. More than 140,000 boys and girls form the large army that will march with their books to the schools in different parts of the city. They will be distributed in 300 buildings, and a force of more than 3,000 teachers will be required to arrange the classes and prepare their studies.

Most of the colleges and higher institutions open later in the month when the public schools have already begun their work. St. John's College, Fordham, is an exception to this. Its fall term begun on September 8. The Rev. Father Campbell presides over the 400 students there, Manhattan College in Harlem, conducted by the Roman Catholic Order of Christian Brothers, opens to-day.

Roman Catholic Order of Christian Broaders, who to-day.

The College of the City of New-York begins to-day the examination of applicants for admission. The building at Lexington-ave, and Twenty-thirds, has been renovated, repainted and repaired during the summer. At the spring examinations there were more than 1,200 applicants from the public schools, but only 625 of these pa-sed the examinations for admission. This number will place the total of students bayond 1,200, the full complement of the college. General Webb has been at Sharon Springs for several weeks. His beatth has steadily improved and he will be able to seeme his duties at once.

been at Sharon Springs for several weeks. His beatth has steadily improved and he will be able to seeme his duties at once.

President Hunter, of the Normal College, returned last week much refreshed by a European trip. The teachers and members of the faculty were all at the college during the week preparing to meet the new pupils admitted in June, who will assemble at the college to-day. The girls who passed the entrance examination unaber 700. This will give the college 1.500 students, its full capacity, but as there are always lifty or more of those passing the entrance examination who drop out, their places are filled by the young women ranking next highest in the examinations. They will have to be re-examined and the week will be occupied in this way and in the arrangement of the classes.

Columbia College opens in October, but the entrance examination begins on September 27. Fresident Barnard will return to the city next week and the faculty are now arriving daily from their summer vacation. Some radical changes have taken place about the buildings during the summer. The trustees appointed H. F. J. Porter supermetendent at their June meeting. Mr. Porter has established his office in the old building. There are about thirty fanitors and mechanics in the college buildings who have heretofore been entirely independent of each other. Now they are all under Mc. Porter's direction. Rules have been made and all visitors to the buildings will apply at the superintendent's office for information. A reception-room is being prepared adjoining his office and the main entrance to the college has been placed in front of the superintenden's office research and the facility of the City of New-York opens for entrance examinations on September 20 and the fall term begins on September 22. The Law School of Arts as it formerly did.

The University of the City of New-York opens for entrance examinations on September 22. The Law School

The University of the City of New-Fork opens for entrance examinations on September 20 and the fall term begins on September 22. The Law School of the University begins on October 1 and all students for admission will be received in the lecture hall of the University Building at 4 p. in.

on that day.

Workmen have been busy during the summer at 8t. Francis Xavier's College preparing the new assembly and gymnasium rooms for the opening session of the college to-day. The new quarters are in the building recently erected in Friteenth-st. The gymnasium occupies the basement and is 100x40 feet in dimensions. On the Sixteenth-st. side of the block several old buildings have been torn down and a large four-story edifice is being built.

BUSY TIMES IN THE DRY-GOODS TRADE. LARGER SHIPMENTS THAN EVER BEFORE AND PROMPTER PAYMENTS-MERCHANTS CONFIDENT.

PROMPTER PAYMENTS—MERCHANTS CONFIDENT.

The activity in the wholesale dry-goods trade in this city began earlier than usual this season, has continued steadily, and notwithstanding the immense shipments already made, shows no signs of abatement. For weeks the sidewarks in front of the larger houses in Broadway, in Worth-st, and around the great establishment of H. B. Claffin & Co. have been blockaded with boxes piled one on top of another. As fast as these are removed by the truckmen others are ejected from big doorways or thrown up from subterranean hatchways, and thus a constantly shipping process is going forward. The houses are often illuminated from basement to upper stories throughout the night, and men are seen within moving hither and thitter, carrying on their shoulders rolls of mushins, prints and smaler wares, while others are packing, nailing and marking boxes for shipment. Behind this rush of work there is a good cause and one which in itself is most acceptable to the New-York merchants. The volume of the trade this season indicates in the judgment of men familiar with mercantile tides, the existence of a greatly improved condition of affairs, and the approach of the long looked for period of more prosperous times. Several prominent dry-goods houses were visited recently by a Tribune reporter. Mr. Weller, of Teffit, Weller & Co. on Broadway, said:

We have never done a greater business than we are doing now. The business is well distributed, and what is always a good sign, the payments are unusually saits factory, which indicates that the merchanic everywhere are in good condition. We opened with a good Southern trade in July, and now our consignments are chiefly to central and Western localities. The special frisht rates on domestic good have contributed largely to the benefit of New-York City. It has had the effect of bringing many people here who have not been seen here for mary years. The trade is unusually large and our reports are lavorable from all over the country.

Charles H. Dunbam, of Ch The activity in the wholesale dry-goods trade in

Charles H. Dunham, of Charles H. Dunham & Co., confirmed this statement in every particular, and the activity in the establishment afforded additional evidence of the fact that heavy shipments are still being made.

Mr. Robinson, of H. B. Claffin & Co., said:

Mr. Robinson, of H. B. Claffin & Co., said:

We began selling goods in larger quantities than usual right after the Fourth of July. Our July business was, in fact, in excess of any July business was, in fact, in excess of any July business we have ever had. The same is true of our August business, and even down to the present time the record of the two preceding months has been shatained. The dry-goods business of the entire city is in the same condition, and we have here pretty good facilities for judging of the matter. I think New-York never distributed so many goods is bulk as sie has in this year of 1886 so far, and I think I am correct in stating that the collections have gradually improved, and that the present year in that respect is an improvement over previous years. In short, the general business throughout the country is in much better shape than we have seen it for many years. It is an indication that the people are attending strictly to their business, know how to do it and are making money. The special reight rates have undoubtedly had the effect of bringing business here, and there are prospects that still further re-classification of rates will follow in the future. This ail has a tendency to improve every line of trade. People are brought to New-York who would not otherwise come, and the business of the railroads and the hotels is also improve ithereby. When it can be made of advantage to the people to come to New-York to make their purchases that is exactly what we want.

Reports from other sources indicate the same ears of a statisfaction on the part of merchants with

Reports from other sources indicate the same ense of satisfaction on the part of merchants with

William Liebknecht, a Socialist member of the German Reichstag, is expected to arrive in this city to-day on the Servia. He will join Dr. Edward Avellug in lecturing in the country for the next three months. He has had a "career." He was born in the university town of Glesen about fifty years ago. He early became familiar with St. Simon's expositions of Frence Socialism. Then he absorbed all the Socialistic ideas he could find in the universities of Glesen and Berlio. He spent some time in Paris, and in 1848 went back to Germany, where he joined a revolutionary movement. One of the leaders was imprisoned, but Lebknecht was a quitted. Later he became journalist and went to live in Switzerland, where he began to draw up a Socialist programme. But in 1850 the Swiss Confederation ordered him out of the commry, and he joined the Communists in London. In 1863 he joined Ferdinand Lasaile in publishing a Socialistic paper in Berlin. The police gave him twenty-four hours in which to leave town. He went to Leipsio, where in four weeks he scatted another paper, which was promptly suppressed by the Government. He returned to Berlin, only to be imprisoned for three months. He was elected in 1867 to the Reichstag as a Social-Democrat, and has held his seat since then with mly a short interval. A NOTED GERMAN SOCIALIST EXPECTED.

A HARMLESS BURGLAR CAUGHT.

A Grash of glass in a window of Henry Roner's grocery store at Fitth-ave, and Union-st. Brooklye, roused the proprietor early vesterday morning. He suspected that burgiars were seeking an entrauce, and vanisaty sent two clerks, who lived with him, to investigate, Greatly to their surprise they found that the midnight marander was nothing class than a large, red, spotted cow, which had broken the window in her effort to get at the cannet vectables which were temptingly displayed on the inside. The clerks were overjoyed to find that the suppositions burglar was easily captured, and they drove her in high triumph to the Bergen Street Police Station. It is expected that charges of milicious mischief will be made by the grocer, and the owner of the cow will have to make good the loss before he can redeem the animal.

KNIGHTS TEMPLAR TO GO TO ST. LOUIS.

There is promise that a goodly number will join the State battation of Knights Tempus that will leave New-York on September 18, for a journey to St. Lonia, to attend the trienmal conclusive of the Grand Encampment of Knights Templar, which begins on September 22. The illustrious nobles of the Mystic Shrine from the East, West, North, and South are to Join the caravan to traverse the heated cands to St. Louis. Camels and water will be provided sufficient for their transportation. The largest hall obtainable in St. Louis has been secured.

A PLAGUE SPOT NEAR POLICE HEADQUARTERS. August Peipner, a Frenchman, was taken sier at the lodging house No. 46 East Houston-st, resterony. An ambulance was sent for to remove him. The surgeon states that the lodging-house was the first place he was ever in and uont for human habitation. The place is around the corner from Police Headquarters, and will probably be looked after by the Health authorities.

contribute solid information for the enlightenment of aimost any company into water he is thrown. I recall a complimentary reference to his knowledge at a dimer party where he had given a definition of a word. "Is that Webster's !" asked one of the guests. "No, its better—its Walker's!" was the pithy reply of another.

NEW-YORK CITY.

James McPhelby, age fifty, was run over and killed by a train on the Hudson River Railroad yesterday at Seventieth-st, and Twelfth-ave. He was a watchman on the railroad. The tenth excursion of the Philadelphia and Reading Rail-

oad to Mauch Chunk, Glen Onoko and the Switchback, will take place on Wednesday. The beat will leave Liberty st. at 8:15 a, m. and will return at about 9 p. m.
Ellen Barber, who was burned by the flame from an exploded lamp on Saturday, at No. 227 East One-hundred-andtwenty-sixth st., died yesterday at the Ninety-ninth Street Hospital.

The Volunteer Firemen's Association will have a reunion at the Harlem River Park to-morr.w. A number of visiting delegations from this State, Connecticut, Massachusetts, Rhode Island, New Jersey and Pennsylvania will be present with their old engines and carriages. There will be contests on the tan-bark an actual fire, an ox roast, dancing, etc., and red shirts and big fire hats will predominate.

BROOKLYN.

The Court of Sessions will recopen to-day. Among the cases set down for trial are those of the fifteen pool-soliers indicted in July. The coney I sland Jockey Club and the Brighton Beach Rachne Association have received notice to appear by counsel for trial to-morrow.

Annie Phillips, a fourteen years-old servant girl, who mundered her infant after she had been betrayed by her employer, C. W. Sullivan, at No. 410 Gatesawe. Has disappeared from her mother's house, at No. 420 Enlevaye, the disappeared from attendant circumstances led to her acquital, and she was sent to the Home for Friendless Women. At the request of her mother she wont to live with her. It is suspected that she has gone with some disreputable companions.

NEWS FROM THE SUBURBS.

ELOPED WITH HIS EMPLOYER'S DAUGHTER,
The recent clopement of a young boilermaker with his employer's daughter is the subject of cossip in certain circles it.

Lersey City. McWilliams & Brown manage an extensive boiler-making establishment at the foot of Passetst. Jetsey City, and are both wealthy men. George Andrews, a good cooking young men, obtained employment in the shop about two years ago and being a good workman of steady habits and the shop about two years ago and being a good workman of steady habits and the shop pocasionally, and in some mysterious manner she and Andrews became acquainted Mr. McWilliams discharged Andrews and ordered his daughter to break off with the young man. This hastened matter to be meaning the some mysterious manner she and ten days ago Miss McWilliams disappeared. The acxt day her father learned that his daughter and Andrews had been married and were living in New York with one of the voing man's relatives. Mr. McWilliams had a storny increased declaring that he would never that your consequence of the neighbors at her father's house, and then left the consequence of the neighbors at her father's house, and it was soon accrtained that a reconciliation had been effected, and that in all brobability Mr. McWilliams would set the young couple up in housekeeping and take his son-in-law into his employment again. ELOPED WITH HIS EMPLOYER'S DAUGHTER.

A MYSTERIOUS TRIO IN A JERSEY CITY HOTEL.

A telephone call was sent yesterday afternoon from the Eagle Hotel in Pavonia.ave, to the Second Procinct Poince Station, asking to have an officer sent to the hotel at once. It was half an hour before the call was responded to and then it was too late. It was ascertained that on Thursday last a tall, fine-looking woman, about twenty-five years old, engaged two rooms. Sue said that her husband and a friend would arrive in the evening. Two nen did arrive in the evening and the party remained all night, On Friday morning they went out and leturned in the afternoon. Yesterday afternoon they were talking in one of the rooms, when the man who was recognized as the husband alipped quietly out and locked the door after him. He ran into the street and hastened teward the Pavonia Ferry. The other man discovered his absence in a few minutes and forcing open the door stated after him. The woman followed, but stopped long enough at the desk to pay the bill. The mysterions actions of the party prompted the proprietor to telephone to the pobre station. The clerk at the hotel said he understood from conversations he had beard that the husband's name was Coffin, and the other man was a detective who had pursued him from some city in the West where Coffin had committed aforgery. The detective did not desire to arrest him, but was giving him a chance to make good the amount of the forgery. A MYSTERIOUS TRIO IN A JERSEY CITY HOTEL.

John J. Cooney, age thirty-one, was instantly killed at 10:45 o'clock on Saturday hight by a north bound express train. He was employed in John Pierce's brick yard, and was walk-ling home on the tracks.

WORK OF THE CENTRAL LABOR UNION.

THE LITHOGRAPHERS-CLOTHING-CUTTERS GOING TO WORK TO-DAY. At the meeting of the Central Labor Union yesterday at Clarendon Hall credentials were received from the Bartholdi Association of Shoemakers, the Photo-Engravers' Union and the Porters and Packers' Union. They were referred to the various sections

When the credentials of delegates from the Progressive Labor Club were introduced there were many objections and some hot debate. These are the eigarmakers who remained faithful to District Assembly No. 49 in the remained faithful to Pistrict Assembily No. 49 in the recent fight. The question was settled by the credentials come sent to the Tobacco Trade section where they will be thrown out. Resolutions were adopted denying the statement which had been made in a letter signed by Louis F. Post that the Central Labor Union had approved the course pursued by George Enter in the matter of the Theiss boycotters and stating that Mr. Post had no authority to make any such statement. The amountement was made that Dr. Aveiling, the Socialist, and his wife would hold a reception to-day at No. 62 East Fourth-st.

and his wife would hold a reception to-day at No. 62
East Fourth-st.

The National Executive Board of the Lithographers'
Union methere pesterday. Reports were received
showing that there are how thourishing organizations in
nearly all the principal cities in the United States.
About 500 men are on strike in Philadelphia for nine
hours' work a day and eight hours on Saturday. Ten of
the largest firms in the city have granted the demand.
The clothum-cutters mer yesterday and the general
opinion expressed was that the strike would be satisfactorily settled to-day. The men are pretty well convinced that the demand made on them to give up the
union was made under a misapprehension, and they
have received assurances that if they apply for work today they will be employed as union men. They will
make the attempt.

COLLAPSE OF A BOYCOTT.

SALEM, Mass., Sept. 12 (Special).-The tanners and curriers of Salem and Peabody now have 700 men at work, of whom about 400 are new non-union men and he others are strikers who have returned to work. Some 1,500 to 1,700 must still be out, but many of the shops have all the men they want at present. The backbone of the strike is practically broken and if they wished it the manufacturers could put their shops in full swing. Mr. Barry, of the General Executive Board of the Knights of Labor, was called on here last week to help Knights of Labor, was called on here last week to help hold the men in line and see if some financial aid could be extended from the general treasury. The strike has now been in progress two months. The Harrington boycott, which has been in force two months, has proved a total failure and the two members of the local board who ordered it on have been dropped and more conservative men put in their places. The overseers of the two towns have made it knewn that they will not render aid to men who can get work but will not take it because of a strike.

WEAVERS RETURNING TO WORK.

NEW-BEDFORD, Mass., Sept. 12. - The striking weavers at the Potomska mili neld another meeting ment of the existing troubles, voted to return to work on Monday. The fine system will be observed, but the weavers are to be exempt except in instances where they themselves are at fault.

PHILADELPHIA BEHIND FOR ONCE. Mrs. Bagley-Wildam, I want to go back to my home

Basiey-Pining for the only original baked bean, dar-ling !"
"No. sir; but I will not live in a city where there is no enterprise."
"What has this city done now !"
"You have a river on each side."

"Ye, my dear."
"And you can't find the sea serpent in either one."

ARCHITECT RICHARDSON SET RIGHT.

From The Boston Heraid.

The Rev. Philips Brooks has taken the trouble to deny the story, that was absurd on its face, that the late H. H. Richardson used to think highly of his design of Trinity Church. The doubts expressed by the eminent architect, according to Dr. Brooks, had reference to the first plans presented by him to the trustees which were not anopted. They differed very materially, as is generally known, from those which were flushly accepted, and according to which the beautiful church was built.

GENERAL WALKER AS A DINER-OUT.

How General Walker fluids time to do so much is an unsolved mystery. His educational work is enough to compy one man's time, but he has leisure for a multiplied of other engagements. He dines out a good deal, and is always to be met with in the best social and literary circles. He does not set up for a wit, but he appropriates wit in others, and can tell a good story as well as I'd better get an onion to rub on me.

AN APPLICATION.

From Rabyhood.

Why do you cry, mamma, "asked Willie of his mother, who was pecling online. "These onlons make my eyes smart." Several days later, when Willie failed to with the control of the cont

NEW-YORK OUT OF THE RACE LIKELY TO FINISH IN THIRD PLACE.

RECORDS OF THE LEAGUE AND AMERICAN ASSO-CIATION CLUBS EAST AND WEST.

tunities to witness their favorite game during the next few weeks. Interesting games will be played every day this week at the Polo Grounds, in Brooklyn and on Staten Island. The Western clubs belonging to the American Association are now playing their last series of games in the East, while the League clubs of the frames in the East, whished their final tour of the West and returned to home grounds on Friday. The tours of the four League clubs through the West was not a successful one, the Eastern nines winning only sixteen games, while the home clubs won thirty-six. The New York nine did wretched work; winning only three out of the thirteen games played. The Philadelphia club did the best work, winning aix games and losing only seven. The Chicago club did wonderful work, and did not lose a game out of the thirteen played with the Eastern teams. The Detroit club won eight and lost four.

The race for the League pennant has virtually narrowed down to two clubs, and nothing short of a miracle can give the much-coveted trophy to the New-York team. The Chicago club won the pennant last year with ease, and veteran critics think that team will capture the flag with even greater ease this year. The Detroit club, however, is a wonder ful team, and the Wolverines may yet make a bold rally for the lead and capture the prize.

The local ciub will have to be content with third place and may have to rush hard to retain that. The Philadelphia club have played a steady, interesting game throughout the season and friends of the nine are confident that the Quakers will come in ahead of their New-York rivals. The St. Louis club has shown great improvement since the man-sgement released Dunlap, and in the dozen games recently played against the Eastern clubs the old Black Diamonds won eight. The New-York team has returned to home grounds and a great improvement in its work may be expected. The sick players are now about in good trim and say they will work hard to regain some of the ground lost.

six and lost only twenty five games. The Detroit team has a record o seventy two victories and 101 games played. The New-Yorkers are third with sixty-two victories and nucty-nine games played. The clubs now stand as follows:

A CALAMITY ENDERESTIMATED. Two ladies caused at the office of z Milwaukee newspaper the other morning and asked to see the proprietor. Both appeared deeply grieved and indignant the was in tears.

What is the trouble I' inquired the business manager.

My, I told your reporter yesterday that I had lost my dear little spatiel, Gyp," answered the teafful one, "and he put the Item in this morning under the head of

'Matters of Minor Importance In and About Town.' I want to stop my paper, if you please."

REFORMED CHURCH WORK IN HARLEM. DR. SMYTH'S LAST SERMON IN THE FIRST CHURCH -DR. ELMENDORF SUCCEEDS HIM. Lovers of baseball will have plenty of oppor-

The Rev. Dr. G. Hutchinson Smyth preached his farewell sermon in the First Reformed Church of Harlem yesterday morning. The old white frame buildlig that has been the home of the second oldest Re-formed congregation in America, was crowded to its full capacity. In the pulpit with Dr. Smyth was the Rev. Dr. J. Elmendorf, of Poughkeepsie, who is to succoed Dr. Smyth as pastor. When Dr. Smyth came to the church, nearly five years ago, it had less than 200 members. The church was without debt, and had valuable property in the neighborhood of One-hundred and-twenty-first-st., but all religious interest had declined. Through Dr. Smyth's efforts the church began to dil. The interest continued to increase, and it was seen that the old church would soon be too small. From two hundred the membership has run up to between seven and eight hundred. It was determined wore than a year ago to utilize some of the property by building a new church at One-hundred-and-twenty-third-st. and Sixth-ave., which should be the Second Reformed Church of Harlem, under the same consistory, and with Dr. Smyth as pastor. The new church was completed during the summer.
"The Reformed Church," Dr. Smyth said yesterday

in his sermon, "has a great work to do in Harlem, and here was never a better opportunity than now. You here was never a better opportunity than how. I have will now have two strong Reformed Churches in this part of the city. We have the making of this portion of New-York on our hands. We can replace the grog shops and the gambling dens with churches of God, and make all Hariem Christian. Our church is well adapted for such work. We are not denominational, but we unite the spirit of all creeds. Indicitly has spent its force within a few years. Its guns are all spiked to-day, and there never was a better chance at home and abroad for Christian progress."

there never was a better chance at home and abroad for Christian progress."

Next Sunday Dr. Smyth begins his services in the new Second Reformed Church of Harlem. About 'wo hundred members of the First Church will follow their pastor to his new charge. Dr. Elmendorf preached his first sermon in the First Church last night. The First Church will still have 500 members and more to increase its strength. Dr. Elemendorf at Foughkeepsie was rewarded as one of the strongest ministers of the city. He is in the prime of life and his new congression has confidence that he will maintain the work of the last five years.

RELIGIOUS SERVICES BY THE SEA. OCEAN GROVE, N. J., Sept. 12 (Special) .-

This morning witnessed the closing service of the Holtness Meeting, which has been held all summer. The Rev.

A. E. Ballard, vice-president of the association,
preached. Governor Pattison, of Pennsylvania, was

The Rev. J. H. Knowles, secretary of the Sabbath Union, preached to a goodly congregation at St. Paul's

The last session of the Summer Sunday-school was held this afternoon. The serimon in the evening was de.
livered by lishop Edward Wilson, of the Reformed Epis
copal Church. The subject was: "The Spirit and the
Bride say come," etc. The closing personal appeal of Bride say come," etc. The closing personal appeal of the Lord Jesus to sinners was a touching evidence of the intensely practical character of His love. The word "Come" was unfolded as the earnest entreaty from a mother or father to a son or daughter. The blessing proffered, "Water of Life," was symbolic and represented all that was necessary for the extrication from sin. The extent of the fulness of the invitation was used to reveal the responsibility of those to whom it had come, and the dangers of rejection and postponement were linear acted by scenes in the past. Especially was this known by pas ors called upon in the hour of siekness and distress by those who had deceived themselves with the thought that it would be always to them as accessible as on occasions in the past. But they now know what it was when God had called to have refused, and the "Come" urged sended only as an echo of the day of refusal, when it seemed so near, so ful, so real.

DEDICATION OF A PASSIONIST MONASTERY. Baltimore, Sept. 12.-The new St. Joseph Passionist Monastery, about two miles west of this city. was dedicated this afternoon in the presence of fully 10,000 persons. The original building was burned about two years ago, and the new oulding is on the site of the old, and is the largest in the country, except that of the same order at West Hoboken. The dedication was by Cardinal Gibbons, who spoke of the order and its objects. The Cardinal was followed by Father Bausch in German. It has been determined to remove the headquarters of the order from West Hoboken to Baltimore, and St. Jaseph's will be made the principal scat of learning. The new building cost \$50,000.

ROMAN CATHOLIC CHURCH CONSECRATION. MIDDLETOWN, CONN., Sept. 12.-St. John's toman Catholic Church, which was recently conse erated, and which had its entire indebtedness paid of by its present pastor, the Rev. B. O'R. Sheridan, was to-day consecrated by Archbishop Corrigan, of New York, as-sisted by Bishops McMahon, of Hartford; Wigger, of 1 31 41 41 81 61 21 87 81 61 6 Newark, and Conroy, of New-York, and over 100 priests. Bishop McMahon was the celebrant, assisted by Vicar-General Hugnes and several of the clerat. Dr. McGlynn, of New-York, preached the consecration sermon, which was both scholarly and eloquent. The Rev. M. F. Keiley, of Bridgeport; the Rev. Dr. McDonneil, of New-York, and the Rev. J. J. O'Donneil, of Norwalk, were the ceremonial directors.

THE BASEBALL CHAMPIONSHIP.

From The chicago Herald.

"The Washington Post" intimates that the basebali championship will be thrown to Chicago this year in accordance with an agreement which has existed all along between the managers of the National League. Its reason for thinking so—at least for saying so—is the fact that the Detroit Club has been playing in bad form in the last fortnight. "The Post" professes surprise that such clubs as the New-Yorks, the Chicagos, and the Detroits should ever be beaten by inferior nines in the league, it does not seem to understand that no baseball club is invincible. We suspect that there would be no National League if one of the clubs in the league were to demonstrate itself perfect. It is the chance that lies open to all that makes the coniest for the first place interesting. Conditions go a long way tsward making and unmaking records; a broken thamb, a lame ankle, a sore wrist—any little vexation of that kind—is very likely to pall a leading baseball club right away from the championship. There is little doubt, we think, that the miserable form in which Ewing has been for so long has lost New-York the opportunity she had to win the pennant this season. Chicago caught her streak of lil-luck about a mouth ago, when four of her best players were so maimed as to be totaily unit for work. Detroit has had a pretty tough experience within the hast fortnight, but she seems to have got her second wind now; it is out of reason to expect a baseball club to go through a season of six months with never a setback. It is one of the easiest things in the world to how! and to ery "foul play," but it is quite another thing to demonstrate that a man or a set of men should be invincible and infallible in this human life of ours.

ROOM V.N. COMPANY.

ROOM VS. COMPANY.
From Texas Strings.

Little Freddy (to young Mr. Pools, who has come to call on his sister, Julia, that young lady not naving yet appeared)—Have you a real nice room, Mr. Poots!
Poots—Oh, yes. I stop at the Squire House, and I have one of the best rooms in the hotel. What makes you curious about my room!
Freddy—Your company is not very good at the hotel, is it!
Poots—What a formula

is it!

Poots—What a funny question. The company at that
hotel is first-class. Why do you ask!

Freddy—Oh, nothing, only! heard sister Julia say the
other day that your room was better than your comname, that all. Poots didn't stop to see the young lady. MARINE INTELLIGENCE
